#	Question	Action to be taken	Responsibility	Deadline
1	Research commercialization arising from postgraduate work has not yet been demonstrated.	Establish a research commercialization framework to identify market-oriented research projects, facilitate industry linkages, and encourage commercialization of postgraduate research outcomes. Organize workshops on entrepreneurship, technology transfer, and commercialization.	ORIC, Dean, HoDs	Spring 2027
2	MS programs do not require publication of research findings before degree completion.	Review postgraduate policies and encourage publication of research findings in recognized journals/conferences before thesis submission. Introduce incentives and publication support mechanisms for students.	Dean, HoDs	Fall 2026
3	Students bear the cost of external thesis evaluation.	Conduct a feasibility study and propose institutional support or partial funding mechanisms for external thesis evaluation to reduce the financial burden on students.	Accounts, Deans	Spring 2027
4	There is no documented policy addressing rejection of theses by foreign evaluators.	Develop and approve a formal policy outlining procedures, responsibilities, revision requirements, and appeal mechanisms in cases where a thesis is rejected by an external evaluator.	Dean, HoDs	Fall 2026

#	Question	Action to be taken	Responsibility	Deadline
5	Research grants supporting postgraduate research remain limited.	Increase awareness of internal and external funding opportunities, establish seed grant schemes, and encourage faculty to apply for national and international research grants involving postgraduate students.	ORIC	Fall 2026
6	Patent registration based on postgraduate research has not been achieved.	Create awareness regarding intellectual property rights (IPR), provide patent filing support through ORIC, and identify research projects with patent potential for registration.	ORIC, Dean, HoDs	Spring 2027
7	Faculty retention may affect continuity of postgraduate supervision.	Develop a faculty retention and succession plan, strengthen faculty development initiatives, and establish co-supervision arrangements to ensure continuity of postgraduate research supervision.	HR, Deans	Fall 2026
8	Outcome-Based Education (OBE) has not yet been implemented in Computing postgraduate programs	Implement OBE in postgraduate programmes by defining Program Learning Outcomes (PLOs), mapping course outcomes, conducting faculty training, and establishing assessment and continuous improvement mechanisms.	Dean, HoDs, QEC	Fall 2026
9	International exposure for postgraduate students remains limited.	Promote international collaborations, student exchange opportunities, participation in international conferences, webinars, joint research projects, and virtual mobility programs.	ORIC, Placement	Fall 2026
10	International research visibility remains limited.	Improve international visibility by strengthening faculty research profiles, ORCID/Google Scholar/Scopus profiles, institutional research webpages, international publications, conference participation and international research collaborations.	ORIC	Fall 2026
11	Mechanisms for tracking postgraduate graduates and research impact can be further strengthened.	Strengthen alumni and graduate tracking systems by conducting regular tracer studies, maintaining a postgraduate alumni database, and monitoring research outputs, citations, and societal impact.	Placement, ORIC	Fall 2026
